

## Product features:

- ▶ Available in various sizes, ranging from 7 to 10 metres wide.
- ▶ Mounting via 3 mounting brackets on case top or rear.
- ▶ Available as either Matte white P or Matte white Sound (perforated) screen fabric.
- ▶ Screen fabric satisfies the highest standard for fire safety (M1).
- ▶ Pre-programmed final adjustment ensures fast installation.

## Technical features:

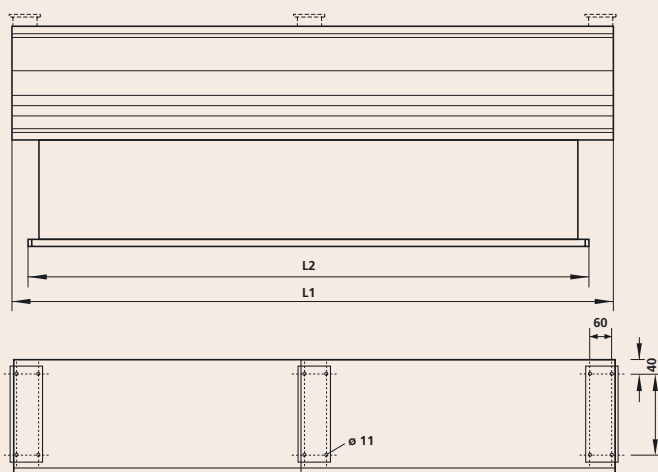

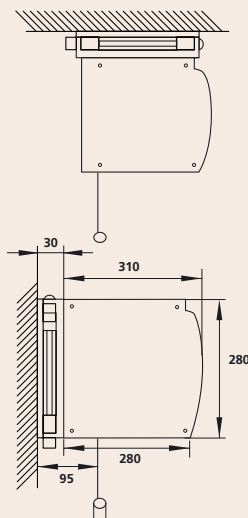

- ▶ Robust steel case with modern front.
- ▶ Screen fabric flame retardant according to DIN-standard 92-503, rating M1.
- ▶ Matte white P screen fabric with a broad viewing angle of 50°, a reflection value of 1.0 gain and a thickness of 0.4 mm.
- ▶ Matte white Sound screen fabric is perforated meaning 7% less light output than Matte white P.
- ▶ The screen fabric has a horizontal weld every 1.9 metres with Matte white P and every 1.45 metres with Matte white Sound that is invisible during projection.
- ▶ Motor fitted with thermal overload cut-out and electrical brake to prevent unintended rollout **see info page 8**.
- ▶ Delivered complete with 10-metre connection cable and separate switch.
- ▶ Powerful in-roller tubular motor (with 5-year guarantee) fitted on right side.
- ▶ Transport packaging according to your wishes **see info page 8**.

## Accessories:

- ▶ Wireless, high-frequency remote control with a maximum range of 30 metres. Comprising a control module, wireless switch and transmitter.
- ▶ Key-switch to prevent undesired use.
