PROJECTA

Projecting tips:

- ▶ Prior to projection first roll out the screen so that the projection screen is hanging perfectly flat when you start projecting.
- ▶ Make sure that direct light (spots) does not shine on the projection screen.

Accessories

- ▶ Ceiling bracket for mounting in room with lofty ceiling height or under false ceiling (max. 100 cm).

- ▶ Cordless high-frequency remote control with a range of max. 30 meters. Comprising a control module, 3 remote switches and a handheld transmitter.
