

Accelerate & Improve Learning

About Qwizdom

Since 1984, we have accelerated and improved learning for millions of students worldwide by helping schools create a **Rapid Learning Environment**. With our award-winning curriculum, aligned to Common Core and state standards, we have created a fun and engaging learning environment.

District-wide reporting provides **instant, precise data at all levels**, from school to teacher to student. Since our solutions are **easy-to-use and implement**, they grow with you, regardless of your technology landscape now or in the future.

Accelerate & improve learning with Qwizdom!

Since 1984, Qwizdom has Accelerated & Improved Learning

*"I tested Qwizdom with a group of students against a control group and I was pleased to see that the Qwizdom group had a **passing rate of 80%**. The control group averaged only 60%. This was excellent!*

*These results have convinced me that I will be using the Qwizdom solution with **ALL my students**. It is an excellent tool that helps all students prepare for their state test in a fun way that they enjoy."*

Adah Stock
8th Grade Science Teacher, TX

*"Our student proficiency in reading for 7th grade increased from **76% to 89%** and our 8th graders from **69% to 82%** and in math, 7th grade increased from **79% to 87%** and our 8th graders from **59% to 72%**! We were ecstatic. Thank you Qwizdom!"*

Marcia Amongst, Principal,
Williston Middle School, ND

Qwizdom helps you create a Rapid Learning Environment

Our easy-to-use system helps you achieve your goals faster. It is designed to give you the real-time assessment data you need to monitor and adjust instruction for maximum student benefit.

Many educators find they are forced to go back and reteach concepts based on results from graded assignments and tests, wasting valuable time and making it difficult to achieve their goals. Qwizdom solves this problem by creating a **Rapid Learning Environment** that provides instant corrective feedback through award-winning solutions and enhanced interaction.

Here's how it works: At the beginning of the year, pretests are administered, creating a launch pad for classroom learning. Qwizdom's ReadySet curriculum is aligned to Common Core and state standards and provides short, focused lessons that can be presented via classroom software, the Qtopia online learning platform or in print form. Using Qwizdom's student response systems engages learners and makes it easy to measure learning every step of the way. To ensure optimal achievement, posttests are then given a few weeks before state exams to gauge learning outcomes and allow adequate time for review, if needed.

Qwizdom will help you...

Accelerate & Improve Learning

Achieve Higher Results at Lower Costs

Increase Communication & Goal-Tracking

Receive Instant Grading & Feedback

Save Time & Money

Get results faster with Qwizdom!

Achieve

Achieve Results

Students receive targeted instruction that leads to higher performance on state testing.

Posttest

Gauge learning outcomes and allow adequate time for review of key concepts.

Engagement

Fun and engaging lessons, used in the classroom or at home, adapt to a variety of learning styles.

Assessment

Instantly gauge understanding and reteach concepts in the moment.

Lessons

Short, focused lessons help students practice essential skills.

Pretest

Create a "launch pad" for learning throughout the year.

Without focused curriculum and immediate feedback, time is wasted & goals are not met.

Without the Rapid Learning Environment

Rapid Learning Environment

Accelerate & Improve Learning

WizTeach: Interactive teaching tools that help engage students and improve understanding of key concepts while using your interactive whiteboard, wireless slate or interactive projector.

ReadySet Curriculum: Hundreds of state standards-aligned diagnostic assessments and lessons with step-by-step solutions and explanations. The instant assessment and remediation ensure students master key skills and improves outcomes on state tests.

Student Response: With instant feedback, teachers can focus on identifying and correcting problems in the moment. This prevents students from practicing mistakes and reduces the need for reteaching.

Qtopia: A customizable online learning platform that makes it easy to teach or review key concepts and assess understanding outside of the classroom. Learning is accelerated because the format engages students and provides immediate feedback and corrective instruction, even while working independently in the computer lab or at home.

Increase Communication & Goal Tracking

Track Progress: Reports are instantly available to identify areas of improvement and provide documentation of standards covered.

Better Communication: Through Qtopia's online learning platform, parents can easily access homework, classwork and reports while students can easily review, practice or learn new material.

Save Time & Money

Quick Set-Up: Easy-to-use tools and ready-to-use curriculum aligned to state standards and Common Core ensure that teachers get up and running quickly with limited need for training.

Save Time: ReadySet curriculum in the classroom or online in Qtopia, as well as all paper-based activities, can be easily graded using our student response systems, Qwizdom Virtual Remote (QVR) or quick-mark utility.

Reduced Expenditure: A typical school can save thousands of dollars each year by providing digital materials instead of printed worksheets and homework.

Receive Instant Grading & Feedback

Reports: Available instantly in multiple formats, making them easy to save and reference.

Increase Efficiency: Instant feedback and grading allows teachers to reduce downtime caused by student misunderstanding.

Qwizdom Education Tools

ReadySet Curriculum

- Curriculum aligned to the Common Core & state standards
- Grade level & subject-specific learning resources
- Provides real-time assessment data to facilitate progress tracking

Student Response Systems

- Engaging & award-winning SRS
- Hardware that is reliable, low-cost and uses RF technology
- Turn any Web-enabled device (smartphone, iPad, Tablet, netbook, etc.) into a student response system
- Reduce grading time & lesson preparation using existing lessons & resources

Create Your Rapid Learning Environment Today!

WizTeach Interactive Tools

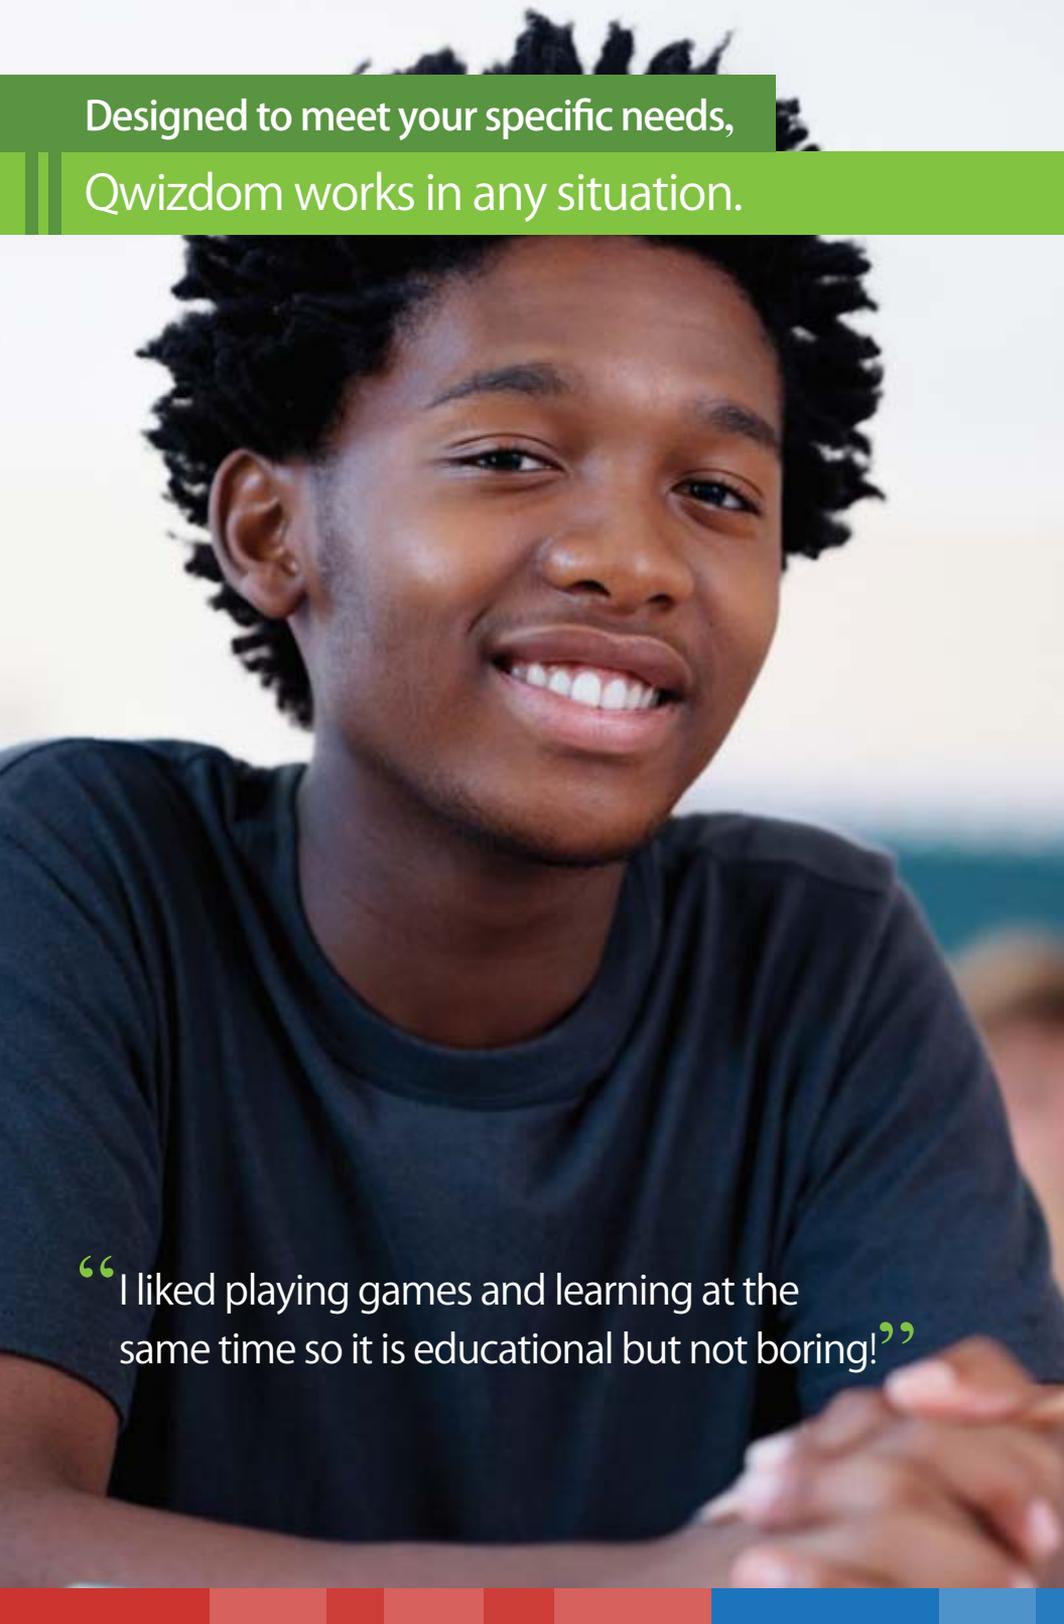

- Interactive teaching software for use with any interactive whiteboard, projector, touch screen or wireless slate
- Over 70 learning tools across multiple subjects
- Integrates seamlessly with student response systems

Qtopia Online Learning

- Online learning platform for school and home use
- Thousands of ready-to-use activities, motivating games & online homework access
- Automatic grading, comprehensive assessment tools & auto-generated reporting

Designed to meet your specific needs,

Qwizdom works in any situation.

“ I liked playing games and learning at the same time so it is educational but not boring! ”

We have solutions for...

Improving Test Scores - Response to Intervention

Formative and Diagnostic Assessment with Instant Grading

Common Core Transition

1:1 Initiatives Including iPad and BYOD

Anytime, Anywhere Learning Including 'Flipped Classroom'

Getting the Most out of Your Interactive Whiteboard or Projector

Whatever your situation, Qwizdom has solutions to help you create a **Rapid Learning Environment.**
