

Control

Simplifying technology

Name: Joey 6 LCD

Description: 6" LCD wallmount colour touchscreen control system. Capable of working in standalone mode or in conjunction with a control processor. Up to sixteen unique screens.

Create macros, customise screens (buttons, icons, backgrounds, pictures and control) all from Joey's simple drag and drop style authoring program. Joey Wallmount is able to control via direct Infra Red and direct RS232 as well as IRBus for more sophisticated systems. This allows the Joey to be a complete control solution.

A bright, LED backlit screen and very low power consumption makes Joey 6 ideal for budget-conscious installations that need the flexibility that a touchscreen can provide.

SPECIFICATION SHEET

Panel Type	Colour LCD, LED Backlight.
Panel Size	6.0" diagonal
Resolution	(320xRGB) (W) x 240 (H) pixels
Pixel Size	0.10(W) x 0.34 (H)
